So assuming you guys have low fraud score IP (Socks5) setup , and cleared all your cookies OR using a AntiDetect Browser with a good OPSEC

Incase you guys missed it , I have covered it already -----> [CLICK HERE](#)

A screenshot of the WHOER website showing IP leak test results. The page has a dark blue background with white text. At the top, there's a navigation bar with links: WHOER, My IP, VPN, Antidetect Browser -10%, Services, and Tools. A red button says 'Buy VPN now'. The main content area shows 'My IP: 149.40.62.42' with a US flag icon and 'Seattle / United States'. Below this is a 'Secure internet' toggle switch. A table lists various system details: ISP (Cogent Communications), Hostname (unn-149-40-62-42.datapacket.com), OS (Win10.0), Browser (Chrome 136.0), DNS (N/A), Proxy (No), Anonymizer (No), and Blacklist (No). At the bottom, a green bar indicates 'Your disguise: 90% Minor remarks regarding your anonymity and security' with a 'More' button. A footer banner offers 'Limited-time 50% off residential proxies with the code RES150' with an 'Open' button. A large, faint watermark 'Telegram: @OpiumCarder' is visible across the center.

This is the minimum score you need to be seeing

BIN : 460146 , 410039

Buy the card of this BIN , very important for the Sony is , it must be of the Same Zip as your drop.

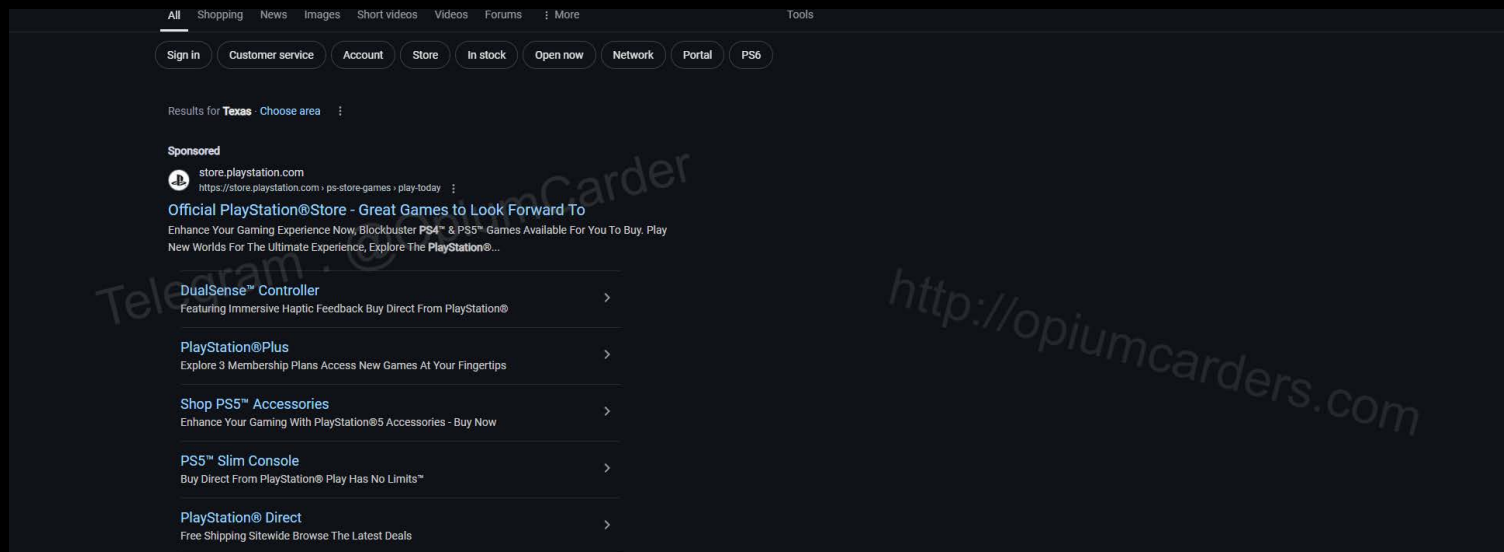

Meaning BIN is not a major huss of Sony , rather it is it must be of Same Zip as your drop address cause

We will be doing ,

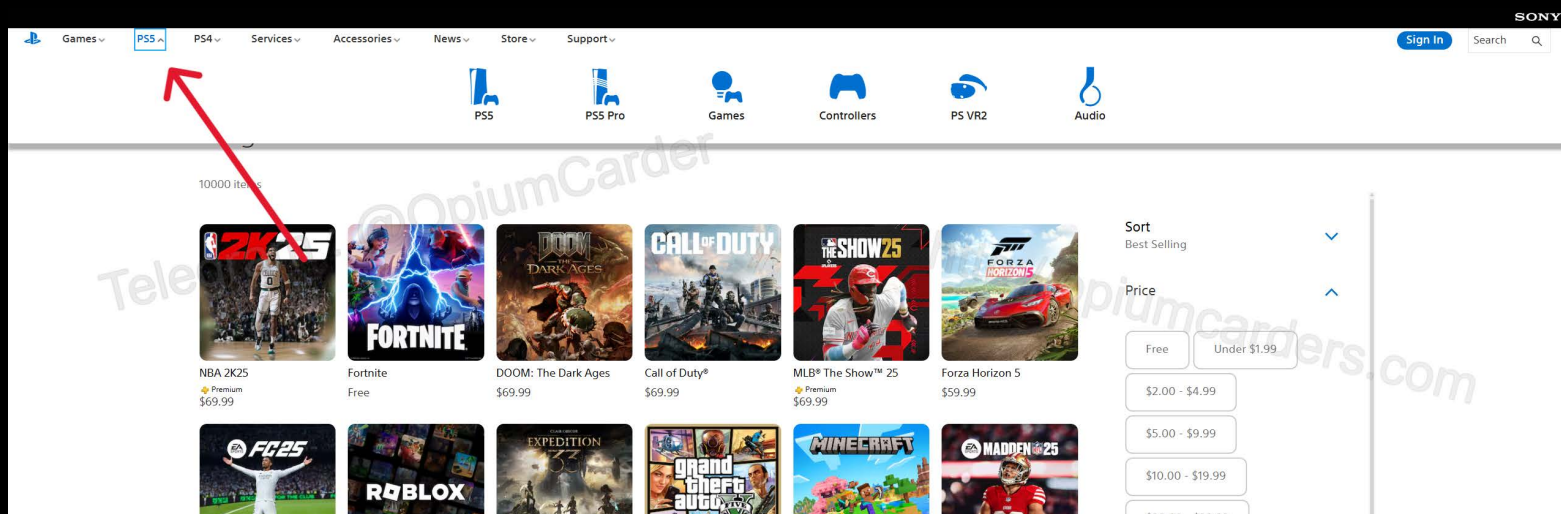

Billing Address = Address on the Card

Shipping Address = Your Drop address
