

How to card ESim(2025) by @OpiumCarder

Carding Mint Mobile E-Sims (And use the ESIM for OpenUps)

We are starting on masterclass of bank open ups each step from copping ESIM, looking up for the further details , and opening up a bank

As I always say all the tutorials continuing will be beginner friendly hence , I will even explain the slightest terms and steps and covering ESim carding

Contents :

- 1) Why we need ESIM ?
- 2) How to card Mint Mobile for ESims
- 3) Activating the ESim

And this is the Part 1 for the bank openup masterclass series , everything further will be uploaded on our telegram channel |

So Scan the QR code shown on the right solve a captcha and get our channel invite link for FREE

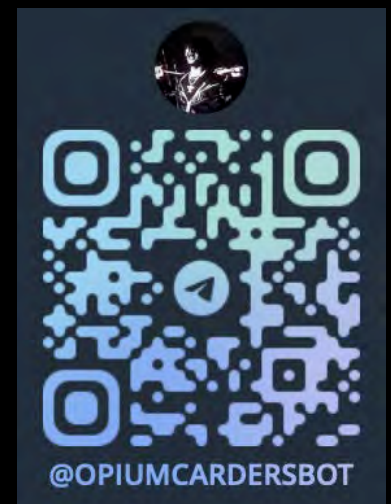

Beginners Tip :

Don't get overwhelmed , we have all been there just go step by step through out the tutorial cause copping ESims , carding and activating them is already 50\$ per SIM revenue , upon that opening up a Bank via the SIM is 200\$ per openup for sale

Hence bare with me through out the pages , any doubts my username is in the channel bio and out bot will also provide it

Ask Questions , No Matter how dumb it is ;)

Start the Telegram Bot , solve a captcha and get the Telegram channel verified invite links.

Why we need ESims ?

What is number verification method ?

E-Sims are just like your Physical Sim Card Chips with an assigned phone number , but thing is they are **digital**. Meaning you don't need an actual physical SIM Card to use the number.

OpenUps - These are blank bank accounts which we will open using some other persons details , and we will have the full access over it (Even the Card will be shipped to us) , it can be later used by cashers , runners to send money to this account cash it.

You can go wild later , and even selling these fresh made accounts each go for 200\$ - 300\$ minimum

Why are ESims related to Bank Openups ?

A : So you may have tried to openup banks via some random fullz (a complete victim info including his SSN , address etc) but failed , this happens as the banks and credit unions nowadays just check for phone number in their credit report.

Meaning in US your phone number is attached to your credit report , hence when you try to OpenUp a new bank they go through the entered victim details and SSN and check their credit report , and **When they see that the phone number which you have entered is present in the credit report , they allow you to openup the bank with no restrictions.**

It is just a better and assured way to openup a bank in 2025 , But I will also cover how to openup if you ain't got the ESim too . but that is for next tutorial (coming on channel)

What banks can be opened ? via this

- Wells Fargo
- Citi Bank
- Northwest Bank and many more ...

What Can be Done with ESim ?

1. As mentioned above Bank OpenUps
2. Credit Card Applications (Will cover this in detail on channel)
3. Credit Unions
4. Simply selling ESim is 50\$ per sim , easy cash ;)

How to Card the Mint Mobile for ESims ?

Now I will provide all BINs , Proxy Sites , and new CC Shops to buy Cards from.

(Now for the Opsec (Setup of all your device to card sites in general) , I have covered this already in 2024 , here is the link if you have missed it -----> <https://t.me/c/2242682993/101>

T-Mobile is the best way to cop your phone numbers , but hard to card , so rather we will use Mini Communications providers like (Mint Mobile) who get their numbers from TMobile , but easy to card.

For the Mint Mobile Gateway all you need is a Chase Credit BIN , and the best one that works for me is

BIN : 414740

(In case you can't find this BIN in the stores use BINCHECK.io , to find similar bins)

Proxies :

- <https://www.cleanlte.com/>

- <https://www.piaproxy.com/>

- Telegram Bot : https://t.me/XXproxy_bot

I like using the bot , cause you can set the ScamAnalytics score to zero)

CC Sites :

1) Ultimate Shop - <https://ultimate-shop.ru/>

TOR link - <https://ultshop3urht5jl6g7rj2vgphetaocjkxgo4k25tnj4g7hfmi4b5mpid.onion>

2) BVCC Shop TOR - <http://bvcvvrutq4pjdkb2xlprnfyy16qn6dqure5pf5mu3wcyxk2a2mlsc2yd.onion/>

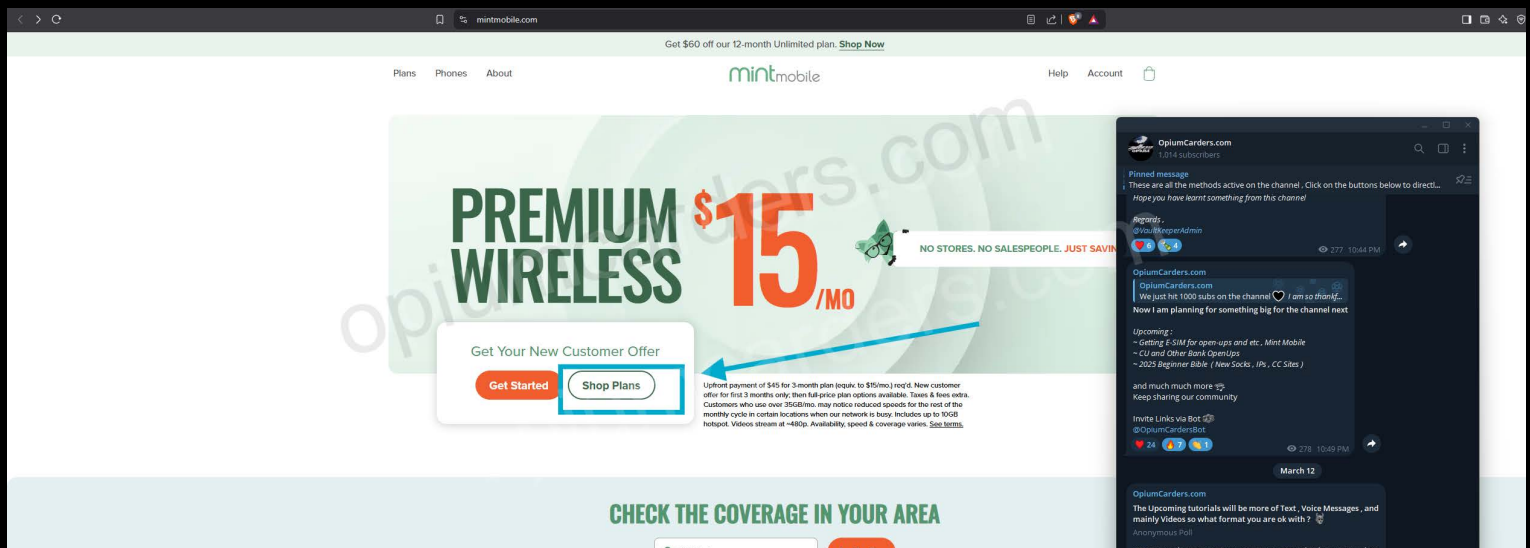

Note* : All TOR Links need TOR Browser to access the sites

How to Card mintmobile.com

So we are gonna card three , or more than three ESims in one go , let's begin

(Tip : If you are using BVCC CC Store as me here , lemme show you how you can buy your CC from site and if it fails on the site , how to refund it)

Just go through the whole tutorial , and buy the CC from the site of 414740 , when I mention in the tutorial step buy at the time.

[Shop 3-Month Plans](#) [Shop 6-Month Plans](#) [Shop 12-Month Plans](#)

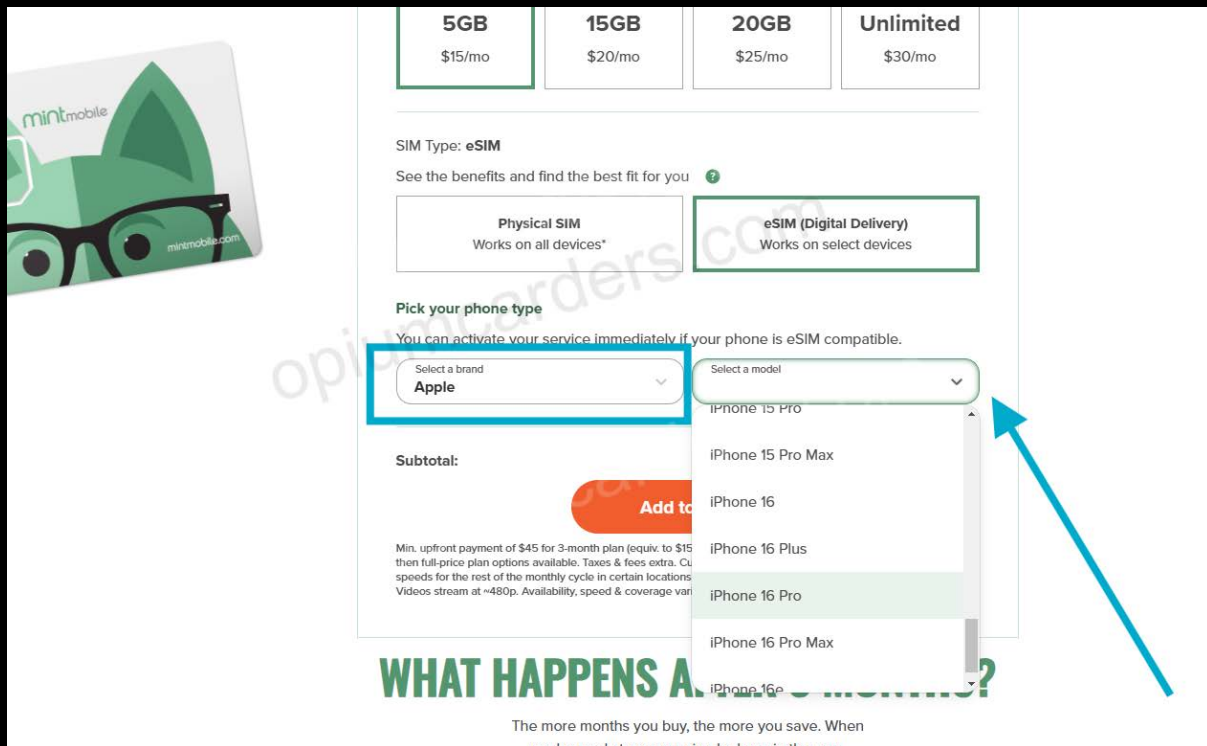

Did you know?

Only the 3-month plan is available for New Customers. Offer requires activation with a US 6-digit phone number.

Now go and choose " Shop 3 Month Plans "

Here choose 5GB Plan , and mainly click on the eSim (Digial Delivery)

Now here is the main thing , choose the brand Apple here and choose 16 Pro Max , (Don't worry choosing this option you can use the eSim on any iPhone above iPhone 2nd Generation).

This is important if you are planning to sell this , as it will support all phones.

* Android Users you guys need to be a bit sharp here before you card

✓ Added to cart: 3 Month, 5GB Plan - SIM Kit - eSIM

Now here after adding three eSims , you just click on " Proceed to Checkout "

Now this is the MOST IMPORTANT thing here , First Name Last Name and all other details doesn't matter.

Only things matter is Street Address and Email Address .

(Now this is where you buy the CC from BVCC , cause you need act quick from here , Don't Check CC after buying never it will kill your card)

Street Address - Your CC Billing Address (Address of the card 414740)

Email Address - The Mail you create new use FastMail , Outlook any keep this safe.

Don't worry on the name and etc here cause we will activate and register the eSim in different name will explain further, now will show you how to ask for the refund in BVCC .

Taxes & Surcharges ? \$0.00

Total \$135.00

☐ PayPal
☐ venmo

line chat below to continue send... Write a message.

Now check your Email , make sure you save your email , everytime

I usually make a Note in my Notes , to organize

Main Things to Organize

1) Registered Name (The name with which you will activate the SIM)

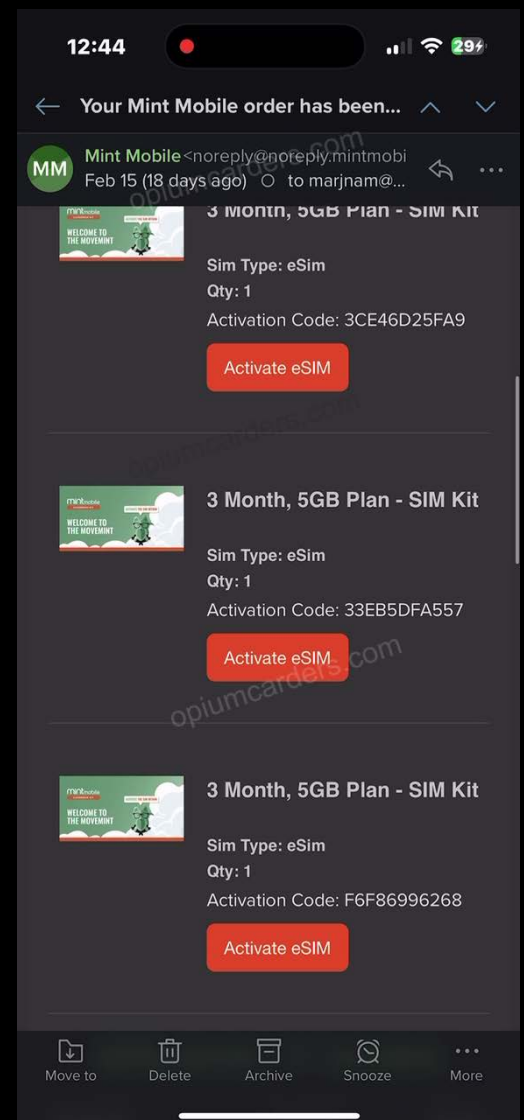

2) eSim Phone Number

3) Email

Now here is all the activation code , we will use these to activate eSim

AND FOR GOD SAKE , NOW WE WILL SWITCH TO MINT MOBILE APP

DON'T USE SITE TO ACTIVATE

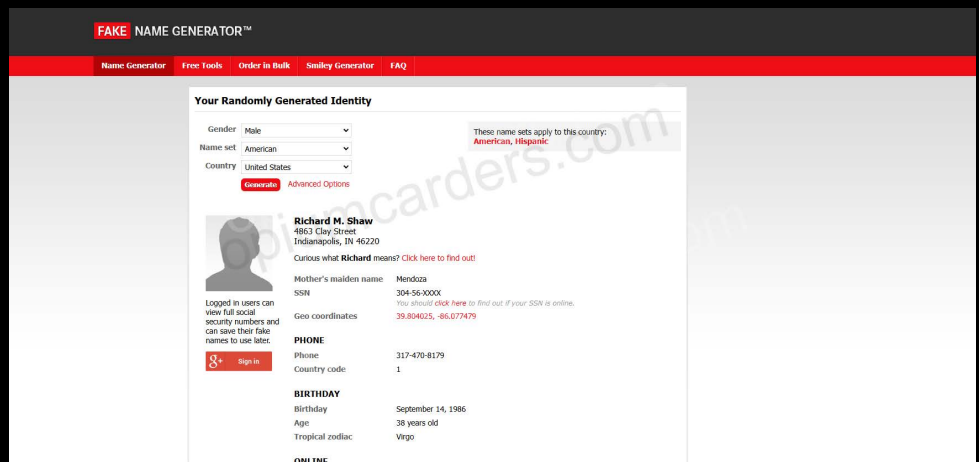

Now here are some things before we activate , I will teach you to organize.

- 12:57
- ESIMS
- Adrian Toro
adytoro@fastmail.com
(832) 400-1234
- Dale Newman
dalenewm@fastmail.com

rongriss@fastmail.com
(814) 400-1234
- Robert Sargent
robsarg@fastmail.com
- Anthony Stelzer
anthstel98@fastmail.com

So here are the main things if your eSim gets any issue you need to chat with Mint Mobile Customer Service , but sometimes they ask to call them , chill down it's just for verification but it rarely occurs

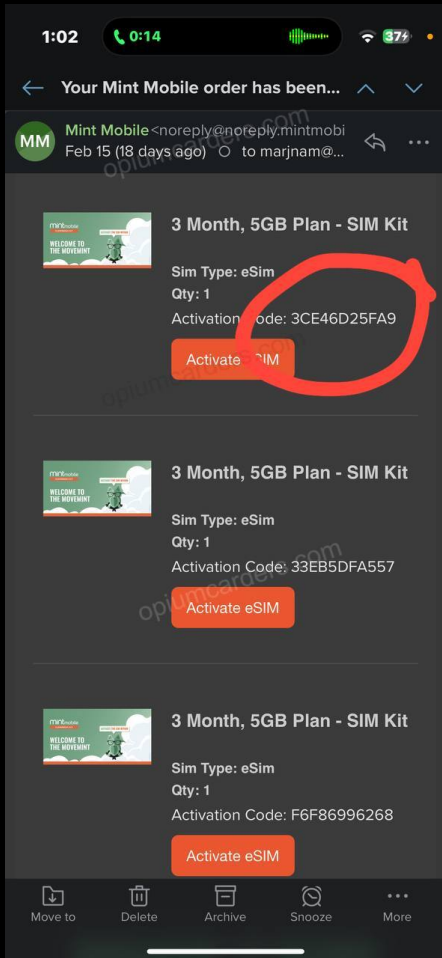

But still, I like to organize it this way and i always register the eSim with a Male name so that if any issues , I can call the customer service myself.

You can use fake name generator for this.

How to activate eSim

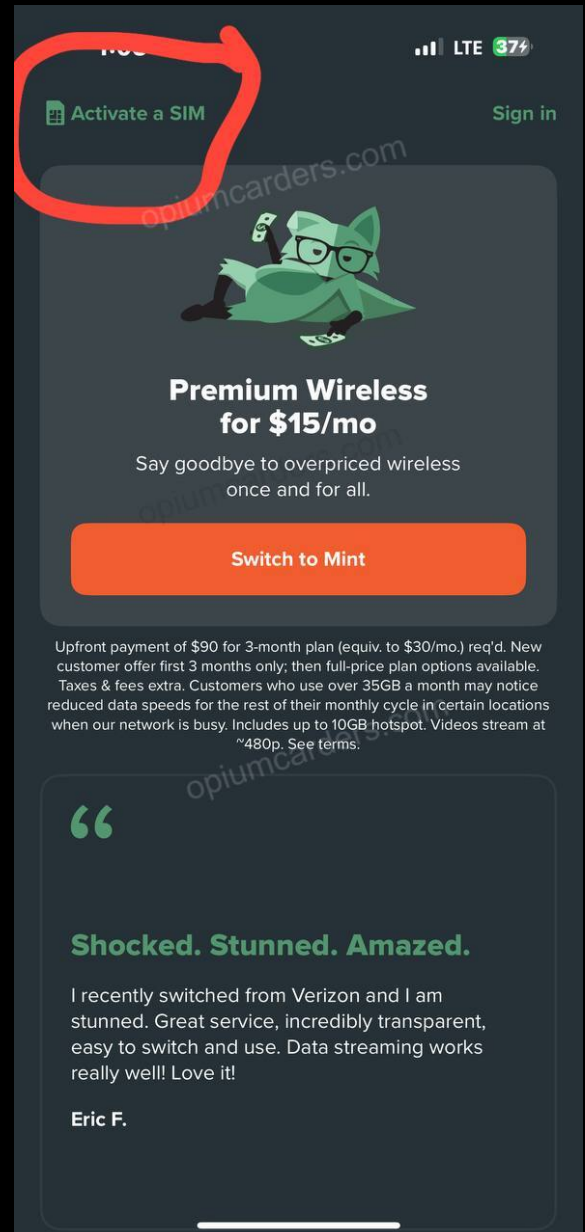

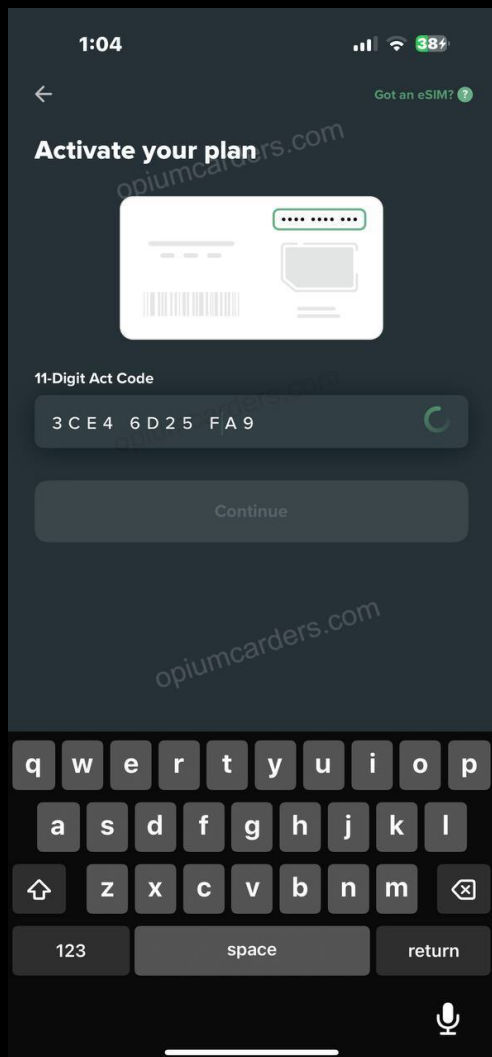

Now the eSim is very easy to activate , open up the Mint Mobile App ,

I repeat again don't use **WEBSITE** , Use **Mint Mobile App**

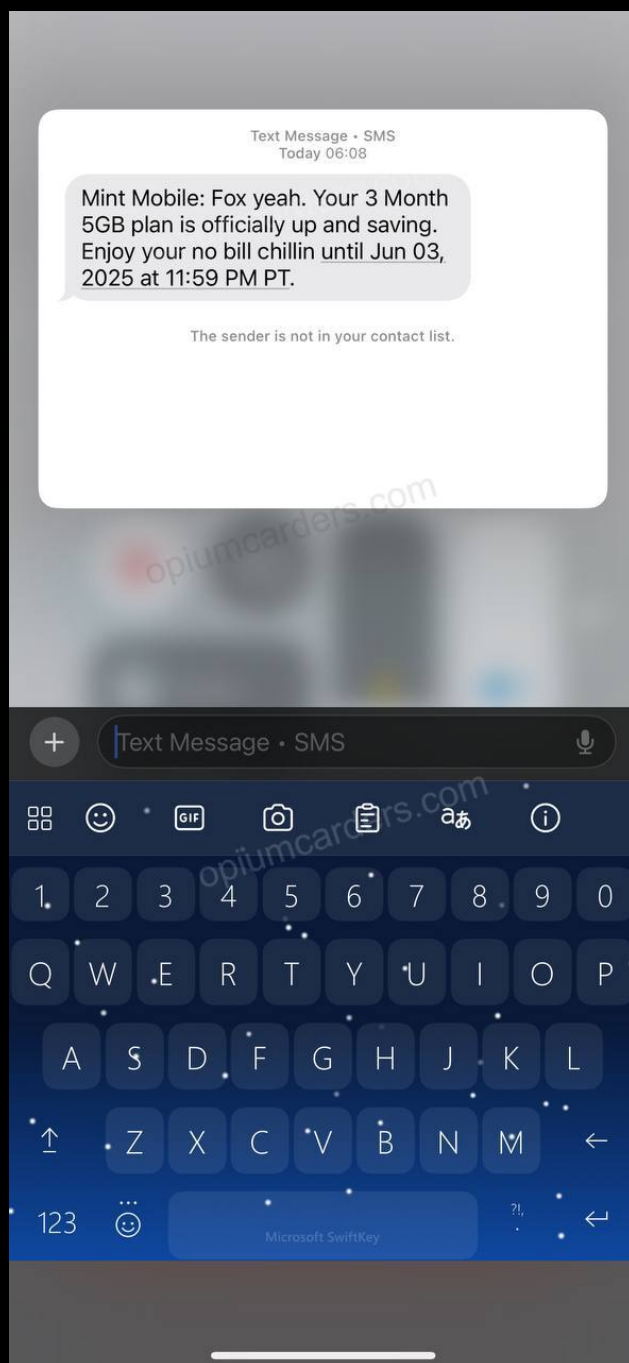

Copy the Activation Code.

Now click on " Activate a SIM "

Now enter the 11 Digit Code , from the EMAIL.

Now done make sure again the registered name , save and organize

and BOOM you are done

What we will do after this in Bank Open Up series

- We will lookup whom the activated number was assigned prior.
- We will lookup SSN and credit report , and openup banks
- We will look how to open CUs
- How to open up without eSim step
